Ludendorff Tells Of Beginning Of War And Of Advance Into Belgium To Capture Forts At Liege

Ludendorff made a picture of himself on the imagination of the world as cold, hard, merciless driver of a military machine. Throughout his book he writes down this character with sufficient plainness. Germany itself got the picture, for, though Ludendorff got the real command of its armies and life, Hindenburg had to be kept at the head of the forces because he had the human appeal so necessary for the national hero Germany needed.

Ludendorff, however, had a strain of the adventurer. The second he gives here of his entry into Liege, as reckless and dare-devil a piece of work as any in the war, throws light on that side of his character.

In the first days of the war the world knew a German force had penetrated into the circle of the fort of Liege and was holding out. It was Ludendorff who took a brigade in. He was sent forward merely as a staff officer, General von Bölow to plan for the advance of the main German army after a covering force had taken Liege. He was not supposed to fight, but he got him self forward and when his brigade faltered he took command and led it past the forts. This feat gave him a chance to rise.

By GENERAL ERICH LUDENDORFF

The favorite recollection of my life as a soldier is the *coupe de main* at the fortress of Liege. It was a bold stroke, in which I was able to fight just like any soldier of the rank and file who proves his worth in battle.

Defense of German Invasion of Belgium; Note to Serbia Recognized as Meaning War; German Soldiers Nervous Over the Expedition Into Belgium, Doubting Its Success. Says Belgian Civilians Fired on German Soldiers.

SAYS HE TOOK THE FIELD WITH A CHIVALROUS CONCEPTION OF WARFARE

The coup de main at Liege was the first of the series of German victories. The decision was a bold one, and the execution extremely daring.

The plan of campaign which was inaugurated in August, 1914, was conceived by General Count von Schlieffen, one of the greatest soldiers who ever lived. It was planned by him in the event of France not respecting Belgium's neutrality.

Country or of Belgium? France. On this assumption the advance of the German main force through Belgium followed as a matter of course. Any other plan of campaign would have been crippled owing to the danger from Belgium to the German right flank, and would have precluded a quick and decisive blow at France, which was essential in order to meet in time the great danger of a Russian invasion into the heart of Germany. In the assumed military situation, as countries' war-games had abundantly demonstrated, an offensive against Russia, with simultaneous defensive operations in the West, implied as a matter of course a long war, and was, therefore, rejected by Count von Schlieffen.

When there was no longer any doubt as to the attitude of France and Belgium, Count von Schlieffen's scheme was carried into execution.

As to the first General von Moltke conferred with the Imperial Chancellor, von Bethmann, on the question of a march through Belgium. I don't know. In any case, no such negotiations were ever conducted through my department, as it was not a matter with which it was concerned. Whether the position had been delegated to the General Staff is also unknown to me. We were all convinced of the soundness of this plan. Nobody believed in Belgium's neutrality.

BIG TOUR WITH CROWN PRINCE THREE MONTHS BEFORE THE WAR

(Continued on Page Twelve)

Federal Troops Are In Control Of Gary Streets

GARY, IND., Oct. 7.—Gary, site of a strike on the advice of Mayor Hodges, of the United States Corporation's greatest plants, affected for more than two weeks by the strike in the steel industry, today was under military control of approximately 1100 federal soldiers, commanded by Major General Leonard Wood, commandant of the central department of the army. Five hundred more troops fresh from riot duty at Omaha, Nebraska, were on their way here early today.

The call for federal troops was made by Governor Goodrich, after thousands of strikers paraded and held mass meetings after being forbidden by the mayor, the police, military authorities, and members of the city government, it seemed as if a serious clash might be unavoidable.

With the parade yesterday, according to a statement by Governor Goodrich, the situation became so threatening that it was deemed advisable to call for federal troops. The governor

ARMED OVER SITUATION

Both officials expressed alarm at the attitude of the ten thousand strikers in Gary and said they feared that the small number of state troops stationed there was insufficient to cope with the situation, read the governor's statement.

Upon the arrival of the federal soldiers, and the issuance of a proclamation by General Wood, proclaiming martial law, the state militia were ordered to Indiana Harbor and East Chicago, where Governor Goodrich declared martial law. The approximately 1300 men under Major General Wood are regarded as sufficient to enforce his directions that no public meetings or assemblies be held and forbidding parades and demonstrations against the authorities. Carrying of weapons of any description by persons other than the police, military authorities, troops and members of the city government, also was forbidden.

Following the action of several thousand men wearing the uniform of the United States army in leading the parade against orders of the mayor and police yesterday, General Wood's proclamation ordered that all men in the uniforms of the United States whether in the service of the United States or otherwise, who are not part of the United States armed forces on duty within the city limits, will be examined, and those who are in the service of the United States, will be attached to an organization on duty in the city limits and continued on duty during the present disturbance."

MARTIAL LAW DECLARED

It was made plain that martial law had not been declared. The federal troops, it was stated by a member of General Wood's staff, will be used to preserve order working in conjunction with the civilian peace authorities. Arrests made by the military forces will be handed over to the civilian officers and tried in courts of law instead of by court martial, he said.

Immediately upon their arrival here, the soldiers began patrolling and early today Gary showed no indication of disorder.

Ample reserve forces were on hand. It was stated, to check almost any outbreak, no matter how explosive. Fourteen powder guns and a machine gun detachment were among the forces. The usual infantry equipment and reserve supplies made up the strength of the command, it was said.

Following the arrival of the various patrols will not be stopped. Captain Charles Polk, officer of the day said, it was not intended to interfere with civil work two weeks ago when the strike of steel workers was initiated, and, except under no disorder and destruction of property, was suspended.

The federal troops here are from the

Fourth and Sixth overseas divisions.

TWO TOWNS UNDER MARTIAL LAW

CHICAGO, Oct. 7.—The general industrial situation at most of the great steel mills in the Chicago district as regards reports on increased operations or diminished output, showed no notable change in the past 24 hours. Down of the sixteenth day of the nation-wide strike in the industry, however, found two steel centers—Indiana Harbor and East Chicago, Indiana—under martial law, patrolled by state militia men, and a third city, Gary, Indiana, site of one of the U. S. Steel Corporation's greatest plants, under military control of federal troops.

From none of the other places in the district harboring steel mills, come reports of greatly altered conditions. At a few mills, it was reported, employers are gradually returning to work, while union leaders maintained their claims that the men were remaining away from work.

At Waukegan, Illinois, a grand jury investigation of charges of malfeasance at the plant of the American Steel & Wire Company has begun.

CLAIM PLANTS OPERATING

PITTSBURGH, PA., Oct. 7.—A number of steel plants in the Pittsburgh district, which were forced to shut down during the strike, have been operating again today, according to reports from company sources. (Continued on Page Eight)

PRESIDENT EATING AND SLEEPING WELL

WASHINGTON, D. C., Oct. 7.—President Wilson continues to improve and he is eating and sleeping well, said a bulletin issued at 11:25 a. m. today by Rear Admiral Grayson, the president's physician. Rear Admiral Stitt, head of the naval medical school, here, and Dr. Sterling Ruffin of this city.

The bulletin follows:

"White House, October 7, 11:25 a. m.:

"The president's improvement has continued. His appetite is decidedly better, and he is sleeping well.

(Signed) "GRAYSON,

"RUFFIN,

"STITT."

The bulletin was issued after a recent meeting of the members of the physician's supplement to the cabinet. John D. Grayson said the president's good appetite was a great sign.

Dr. Grayson said the president's

metters. However, the doctors, it is understood, their orders for no state rest to strictly carried out and the president will be kept in bed for the present.

In the view of Dr. Grayson, the president's physique has improved during the past few days, and the improvement shows that any more exertion, now, might do great harm to the president.

There is no intention to send the president away from Washington.

HAMBONE'S MEDITATIONS

WASHINGTON, D. C., Oct. 7.—Disagreement over rules proposed for the governing of the industrial conference called by President Wilson resulted in the conference adjourning suddenly yesterday after Franklin K. Lane, secretary of the interior had been elected permanent chairman. It will meet again at 2:30 o'clock this afternoon.

As proposed by committee the rules provided that all conclusions and decisions must be arrived at by unanimous vote of the three groups representing capital, labor and the public, while the decision of each individual member of the group would be by a majority of the group.

The rule was attacked by John Sparge, of New York, replying for the committee, as

designed to obtain effective action in

stead of debate.

Mr. Sparge declared the conference

and the other objectives of the president, the employed group, the conference adjourned to allow each group to consider

any proposal of any group.

After the adjournment, the conference

met again to consider the proposed

rules.

Sheffield Table Service

is rapidly becoming more popular as gifts for fall bridges.

The life long beauty of Sheffield Silver and its remarkable strength and durability have made it a desire possession in every home.

There is unfortunately no law to prevent stamping a Sheffield mark on almost any article of silver, and many times it is applied to light, flimsy pieces of silver that are entirely unworthy of the mark.

Antique Sheffield was made with a copper base which is not practical for hard use, as silver does not adhere well to copper and the silver, when worn thin, shows the dark copper underneath.

Our Sheffield silver is of the finest quality, with real nickel silver base, is practically indestructible, and guaranteed for a lifetime of use.

Sheffield tea sets and Holloware are very serviceable and recognized as superior to sterling ware, because of its weight and durability.

We have tea and coffee sets, trays, platters, pitchers, fruit bowls, and odd pieces of Holloware in various designs and prices.

See window display.

Additional Statistics On Health Department

The following is another installment of the state examiners report on the health department.

REMOVAL AND DISPOSAL OF DEAD ANIMALS

March 5, 1917, the board directed that J. H. Godspurter be paid \$5 a month for the removal of dead dogs and cats.

July 2, 1917, Mr. Godspurter's admitted a proposition to remove all animals in the city for the payment of \$30.00 per month.

April 3, 1918, through action of the board an agreement was entered into with W. F. Symonds for the removal of dead dogs and cats at the rate of \$1.00 per month and for the disposal of other dead animals at the rate of \$0.50 to be paid by the owner and that he should \$0.00 per annum, expense of burying animal, the contract to expire December 31, 1918. No other animal has as yet been paid by the city. It will be seen that dead animals were removed to a reduction plant for sale since said plant is open.

It is deemed necessary for the board to make the arrangements as follows:

The records would seem to indicate that since the price for the removal of animals was fixed upon a monthly basis the number of dogs and cats removed during the corporation has materially decreased.

During the period of seventeen months the city paid \$30.00 for the removal of animals, and these consisted mostly of cats and dogs, there were a half dozen larger animals. In comparison with other cities of a similar population the amount expended for the removal of dead animals is less. The council having failed to appropriate a sufficient amount to cover the actual price, it is set forth there has been no payment made for the month of August and September. Considering the stressed condition of their funds it would seem advisable for the board to eliminate all unnecessary expense and we know of no place where there is a better opportunity to pare the expense than in the removal of dead animals. Whatever it is possible to save in the name of the owner of the dead animal he should be required to pay it at his own expense.

GARBAGE GATHERING AND REMOVAL

The collection and removal of garbage under the ordinance of council, was under the direct supervision of the service department. Under a resolution passed on June 25 and 26 of the material and made certain orders by the board since the adoption of the manual, the board of health and the council restricted on the gathering and removal of the garbage in the city. The health officer informs us, however, that the orders and regulations of the board are given but little consideration. The board of health reserves its rights and belief to bear such action as may be necessary in the operation of its regulations.

We believe, having in view the better conservation of sanitary conditions, it is a better protection of the health of the city, that the supervision of the collection and removal of garbage should be exclusively in the hands of the health officer. They should be made for the health fund sufficiently high as to provide the necessary funds for the purpose of paying the cost of garbage collection and removal.

In this connection we desire to call attention to the manner of handling a garbage proposition in other cities of the state, especially the cities of Cleveland and Boston, where the gathering and removal of garbage is made a source of income instead of an outlay. The garbage proposition will be recommended upon under the heading "Service Department."

CITY PHYSICIAN

In accordance with the rules of the manual it is the duty of the city physician to take charge of all sick and crippled cases confined in the city prison, the Anderson Hospital; to prescribe for all cases in the city entitled to public aid.

It is claimed by the health officer that in the appointment of a city physician the board acted under the authority of Section 418, General Code, which provides in part:

"The board may appoint a clerk and with the consent of council, as many additional physicians, or one word physician for each ward in the city as may be necessary."

While we have found no record indicating action upon the part of the board in the direction of a city physician as a district yet it would seem evident that the intention of the board was such inasmuch as but one city physician was appointed. In order that there may be no irregularity concerning the matter we would advise that the board immediately pass a resolution declaring a city district for the purpose of the activities of a city physician.

It will be noted from the law above quoted that no ward or district physician may be appointed without the consent of council. We were unable to find a record of council's consent was given for such an appointment. If consent was given by council to the appointment of a physician such as is provided in Section 418, General Code, then the appointment was irregular and the funds disbursed for said purpose needlessly expended. No finding is rendered at this time on said account but it should be ascertained that the law as so complied with undoubtedly findings will be rendered in future audits.

It will be noted from the rules prescribing the duties of the city physician that he is required to attend all cases of sickness and furnish relief wherein the parties afflicted are indigent or unable to pay for medical attendance. We are inclined to believe that such service comes under the poor laws of the state and is in the form of outdoor relief and provision should be made for the attendance of such under the stipulations as set forth in Sections 3439 and 3442, General Code; in other words the jurisdiction of such service lies with the director of safety. The jurisdiction of the board of health extends to the preservation of sanitary conditions and the treatment of cases of contagion and infection.

Under the action of the board of health February 7, 1916, the compensation of the city physician was fixed at \$160.00 per month and there was added to his duties that of milk inspector and city bacteriologist. There was also granted an allowance of \$25.00 per month for medicines not including antiseptics and serums.

On Feb. 2, 1916, the board confirmed the salary and allowance of the city physician as fixed February 7, 1916.

August 3, 1917, the board of health fixed the compensation of the city physician with the added duties as above set forth at \$160.00 per month, an allowance of \$25.00 per month for medicines excluding vaccines, antiseptics and serums.

It will be noted from the record of the action of the board that the \$25.00 per month for medicines is not in any sense a part of the salary of the city physician, merely an allowance as a reimbursement for medicines that he may need in the performance of his service. In other words there is paid the physician for monthly \$25.00, ostensibly for medicines furnished by him and he uses this amount whether or not there are medicines furnished in said amount.

The proposition as to the payment of a regular allowance of \$25.00 per month to the city physician for medicines was submitted to the Bureau of Insurance and Supervision of Public Offices and under date of November 11, 1918, the following reply was received:

BRINGING UP FATHER

BY GEORGE McMANUS

Drive For Community Service Bureau Fund Started Today

With enthusiasm in the altruistic cause for which they will work during the next few days, 60 business men of the city sat out at noon today from the Y Club where they had lunched, to canvas Portsmouth in a drive for funds to support the Bureau of Community Service, an organization which with helping hands enables the needy of the city and raises the tone of Portsmouth in its mothering of young girls, according to the helpless sick, its constant work for the betterment of the city.

The drive will last three days and 11?

"Gave Stomach Relief" Says Policeman Gore

Carl Gore, Portsmouth policeman, who lives at 409 Court street, says: "For twenty years I suffered with nausea in chest, gas on stomach and constipation. I tried numerous remedies but received no relief. A friend recommended Dr. Parker's Treatment for Indigestion and Constipation and it has made a well man of me. I highly recommend it."

You too, can be relieved of those painful, distressing sensations, that follow indigestion and constipation. Get a box of Dr. Parker's Treatment,

especially prepared for those troubles. Take half of it. If not relieved—get your doctor back. The Parker Medicine Company, of Athens, Ohio, says: "If Dr. Parker's Treatment for indigestion and constipation does not make good, we will."

For sale by Wurgler Bros. Pharmacy, Fisher and Strelch Pharmacy, Miller's Drug Store, Kyle's Drug Store, Bushaw's Pharmacy, Flood and Blake Pharmacy; Froud's Pharmacy, Jones' Pharmacy, Prester's Pharmacy and all druggists.

will not be a house to house canvass. It will close at noon Friday.

The business districts, the factories, and some of the residential districts will be canvassed. In the organization of the Bureau of Community Service is the home nursing department; tuberculosis department; baby welfare; better house-keeping department.

The Trachoma clinic is operated under its head the Government Clinic is one of its activities. Its self-imposed duties are legion. Why not support

that the work of the Bureau is recognized in the community is shown by the following in the special report of the grand jury last Saturday:

"We recommend the Bureau of Community Service for the splendid work it is doing and has done with reference to bringing neglected children to the notice of the authorities, and that parents and others who are responsible for such conditions are made to feel the strong arm of the law."

At the noon luncheon at the Y Club, which started operations W. W. Anderson presided. C. H. Dowling made a speech full of pep, giving instructions and outlining what the tonus should do.

Following this came a special feature for the noon hour, a talk by Director of the Bureau, Edward S. Gilfillan.

Mr. Gilfillan said in part:

You are probably pretty well aware of the work that is being done by Community Service, so I will only refer to a few of its various departments. In the various departments the Community Service has the machinery to take care of many of the social problems of the city.

If a family service worker, in the course of her work, finds someone who is ill, she calls in the Community Service Nurse, who will get a physician and care for the patient. If a nurse finds a child neglected we have a de-

partment to handle that; if she finds an operation is needed we have a dispensary and the services of doctors and nurses to take care of that. If the Family Worker finds a man who will not support his family or a mother who is unfit, she is a Protection Officer of the Court, and can promptly bring the case before the judge.

All these matters are reported to the Director or Assistant Director and talked over by the different workers who would naturally be connected with the case and, the best possible plan for the case is decided upon, each worker taking her part and all working together. In this way greater efficiency is obtained than if they were working separately. Simon Lan-

guary found they were infected

and that some man was responsible for their condition. The nurses then took them to Hempstead Hospital for treatment, but the hospital does not handle such cases, so we had to provide a special nurse at the Community Service expense, the hospital allowing us to use one of their rooms where we kept them for about three weeks till their need of constant care was over.

Other Community Service Workers followed this matter up and found out who the man was who was responsible for the condition of the three little girls and he was indicted and convicted on the testimony of the Community Service Nurses. Treatment was arranged for the little girls at a hospital in Columbus and paid for by the Community at our request. When they were pronounced cured, they were taken to Probate Court where their mother was found unfit to care for them. One was adopted by a first class family and the other two placed in the Children's Home. One who knew them six months ago can hardly recognize them now, so much are they improved. Last Friday, the father, who had deserted his wife with excellent reason, was brought into court and agreed to pay a sum monthly for their support.

To sum up: The little girls have been rescued from vicious surroundings and are now well cared for; their father has been made to assume at least a part of his responsibility; and the man who took advantage of their youth and unprotected condition is in the pen.

No cases are left hanging in the air but are pursued to the end. They move slowly sometimes because of obstacles, but they keep the end in view, which is to put the family in the work, or in some other way provide for the members of the family in some permanent way. Let me give you one example of the way it works.

A Family Service Worker was called to give food and clothing to a family living on lower Third street. She found three little girls, seven, nine and ten years old who were all in bad physical condition, and enlisted a Community Service Nurse. The nurse took them to the Community Service Dispensary to be examined. The doctors who examined them at the Dis-

persary found they were infected

and that some man was responsible for their condition. The nurses then took them to Hempstead Hospital for treatment, but the hospital does not handle such cases, so we had to provide a special nurse at the Community Service expense, the hospital allowing us to use one of their rooms where we kept them for about three weeks till their need of constant care was over.

Other Community Service Workers followed this matter up and found out who the man was who was responsible for the condition of the three little girls and he was indicted and convicted on the testimony of the Community Service Nurses. Treatment was arranged for the little girls at a hospital in Columbus and paid for by the Community at our request. When they were pronounced cured, they were taken to Probate Court where their mother was found unfit to care for them. One was adopted by a first class family and the other two placed in the Children's Home. One who knew them six months ago can hardly recognize them now, so much are they improved. Last Friday, the father, who had deserted his wife with excellent reason, was brought into court and agreed to pay a sum monthly for their support.

To sum up: The little girls have been rescued from vicious surroundings and are now well cared for; their father has been made to assume at least a part of his responsibility; and the man who took advantage of their youth and unprotected condition is in the pen.

This is only one of many cases cared for through the Community Service, but there is another side of the work and that is cooperation with other agencies, such as the United States and the State, the venerable clinic is an example of this. The Community Service corresponds with the Government in regard to the establishment of the clinic, with the result that the Government pays the salary of the doctors, the city bore the initial expenses of the equipment etc., while the Community Service pays for the salaries of the two nurses, the drugs, (with the exception of the Salvarsan) and the running expenses of the clinic.

Another example is the Trachoma clinic. You have been hearing a great deal about Trachoma lately. The last Ohio Legislature appropriated ten thousand dollars to wage a fight against Trachoma. On account of the fight the Community Service made last winter, and because they knew they would find cooperation here, out of all the committees in the state, the Commission selected Scioto county as the place to begin. The expenses of the clinic are being held here in Portsmouth now, borne by the State and the United States, but the Community Service has given in its Dispensary, its nurses, and its Social Workers at their disposal, and has obtained the cooperation of other associations in carrying on the work. When the doctors found they suddenly needed thirty beds, we brought them from the Fresh Air Camp. Sixty percent of those recommended for operations have already come in, and all the operations have been performed at the dispensary.

The work has been done efficiently—we have got what we were after—over a hundred people have been saved from possible blindness, and there are between seventy-five and a hundred yet to be operated upon and it is the intention of the Government to hold these clinics periodically in Portsmouth, till the disease is stamped out, but this could not have been done

except for the machinery of the Community Service, and because we had this machinery, it has been done at very small cost to the city, as compared to what the Government is spending—two hundred dollars would prob-

ably cover the amount we have spent in the last two weeks.

Turning to pleasureable subjects, recreation has been found to be one of the best weapons in the fight against disease. The Community Service entirely finances the Boy Scouts and the Girl Scouts and maintenance of the children's playgrounds, not because of our experience in athletics. In other cities, we were able to bring about the successful formation of the Industrial Ball Association.

If the work of the Bureau of Community Service is now doing was done by individual societies, as is the case in most cities, you would have to have the following societies in Portsmouth:

1. Associated Charities.

2. Visiting Nurses Society.

3. Children's Aid Society.

4. Girls' Protective Association.

5. Anti-Tuberculosis League.

6. Fresh Air Camp Society.

7. Public Dispensary.

8. Legal Aid Society.

9. Toy Scouts.

10. Girl Scouts.

11. Playground Association.

12. Recreation Organization.

Supposing all of these twelve soci-

INDIVIDUALITY

is unquestionably one of the strongest points in any man's make-up. As water runs down hill, just so sure does individuality come to all who have learned the habit of saving.

John, who is our treasurer, in speaking of the work of the Community Service, the other day said that it was getting more results, dollar for dollar than last, as the result of this cooperation, and experience.

All this work is not done in any half-hearted manner, but the workers that start with us achieve results because they are interested in the work itself, and they do things to carry work through that no one could get done for money.

No cases are left hanging in the air but are pursued to the end. They move slowly sometimes because of obstacles, but they keep the end in view, which is to put the family in the work, or in some other way provide for the members of the family in some permanent way. Encouraging Bolshevism

Everything that falsely encourages unrest also encourages bolshevism.

Misunderstanding of American industrial organization, and of its benefits to mankind, leads to unrest, dissatisfaction, and radicalism:

For example, the Federal Trade Commission tells the public that the large packers had an agreed price for lard substitute (made of cotton-seed oil).

It reproduces letters taken from the files of one of the packers, showing that such agreed price existed.

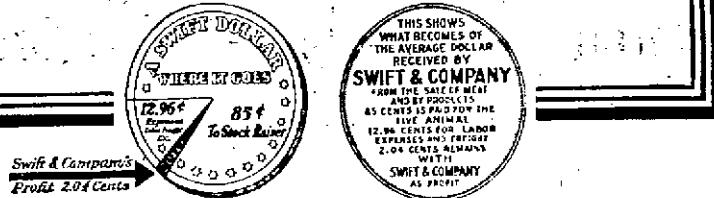

But it failed to mention that the agreed price was determined at the request of and in co-operation with the Food Administration!

Even the Department of Justice, in its unjust attempt to create prejudice against the packers, has made public these same letters, with no explanation.

How long must this kind of misrepresentation continue? In so far as it is believed, it not only breeds discontent, but results in injustice to our industry.

Let us send you a Swift "Dollar." It will interest you.

Two Women Are Hurt

Mrs. Herbert Kennedy and Mrs. Frank Kuhn, of Fremont, received injuries Monday afternoon about four o'clock, when the automobile in which they were returning home, was hit by a truck and turned over on the Buena Vista pike near Henry Kuhn's livery stable.

The accident victims say that a truck owned by Mr. Miller, of Buena Vista, struck their Ford touring car and caused it to leave the paved road and go over the four foot bank.

Mr. Kennedy being cut on the nose by glass from the wind-shield. It is thought that her nose is broken. Mrs. Kuhn suffered serious bruises to her side and neck area.

Mr. Kennedy, who was in the front seat with the two women, was not hurt. Dr. J. W. Oberst, of this city attended the injured.

The Ford which is owned by Charles Kuhn of Friendship, had the right

hand side of the front door broken out.

Both women were taken to the hospital.

Aged Woman Drawn Against Train, Injured

Mrs. William Smith, about 75 years of age, is recovering from injuries sustained when she was drawn against a freight train near Eleventh and Gay streets.

Mrs. Smith, who lives in the rear of 1015 Findlay street, had been down in the "bottoms" and had an onion full of tomatoes. She was walking on the east sidewalk of Gay street just north of Eleventh, when a freight train came by. The sidewalk is very narrow, and as the train passed the suction of air drew her against the train. She hit the side of the caboose and as it passed she fell on the track.

The train crew stopped and came back, the aged woman being in an unconscious condition for a short while. She was assisted to her home and Drs. J. D. Hendrickson and S. S. Halderman attended her. She suffered bruises about the hips and breast.

On account of her advanced age, Mrs. Smith suffered greatly from shock. She is the wife of "Daddy" Smith, who farms the "bottom" land for J. M. Stockham.

MAKES FEET FEEL FINE!

The instant you apply a little strip of TRUTONA to your feet you will feel that sore, aching, tired, sore or baneful, you'll forget your foot troubles.

No Flu in City Says Local Health Officer

No cases of influenza have been reported for some time, due to Health Officer Dr. W. W. Smith, according to his statement made this morning.

"I have not made a thorough canvass, but through inquiries made of most of the physicians of the city, I find there are not any cases so far.

"If any are in the city they are isolated and have not been reported."

"Rumors to the effect that many cases of influenza are scattered through the city are without foundation. A number of people with severe colds are frightened into believing they have influenza."

Mission At St. Mary's

A special lecture beginning at 7:45 this evening at St. Mary's church will be delivered on "Confession," or "How Sins Are Forgiven In the Catholic Church." The Jesuit Fathers who are

conducting the Mission at St. Mary's church this week are arousing exceeding interest and the services are well attended.

This evening will feature a special lecture.

RODE BIKES TO HUNTINGTON AND RETURN

Rolland Brown of tenth street and Earl Wolff of Eighth street rode their bicycles to Huntington and back Sunday. The trip going

took four hours, part of the way being made in the downpouring rain. Brown works in a shoe factory and Wolff is a "Times" carrier.

WILL HOLD SMOKER

The Portsmouth Poultry and Pet Stock Association will have an open meeting and smoker Thursday night at the city building, at which definite

plans concerning the fall show will be discussed.

It is now probable that a down town building will be secured for the exhibition and it is the intention of the show committee to complete final arrangements for the price list, etc., at once if the interest shown by the smokers will warrant it. Several silver cups and other valuable prizes have been promised and there is no reason why Portsmouth should not have a high class show this fall. Every member and every friend and brother of poultry, dogs, or pet stock, is invited to attend and express his opinion on the questions that will come up.

DON'T DESPAIR

Community Bath.

In criminal trials, "Community" bath means exemption from prosecution. The expression was first used several years ago, when several defendants in a trust case were discharged by the United States court on the ground that they had gained personal immunity by furnishing the evidence upon which the indictments were based.

Community Bath.

In criminal trials, "Community" bath means exemption from prosecution. The expression was first used several years ago, when several defendants in a trust case were discharged by the United States court on the ground that they had gained personal immunity by furnishing the evidence upon which the indictments were based.

MASONIC BOWLING LEAGUE OPENS

P. H. S. Warriors Are Lectured By Coach

Radical changes in the lineup of the Portsmouth High School football team that the opponents were a likely to be made at a meeting of the war-worn officers Monday afternoon.

Coach Robert C. Hess, in the course of his remarks on the Mardela game, declared that after the long disagreement with the school board over the work of each player, on the 20th and 21st and 22d playing on a Mardela game and ruled out of the field with the temperature so high, each player was also given a substantial field with the temperature so high, it was no wonder that the coaches had to make out for the good of the war-worn. The coach did not appear and did not bring a report to offer an ally for the educational feelings against them.

SPORT SALAD

A large crowd is expected to attend the World Series game at Milwaukee Park 6:30 p.m. Saturday, as the Reds have only one more game to catch the glove two local business men, who purchased the hotel for Portsmouth.

MAY BE LAST CHANCE TO SEE STAR BOARD

The Star pre-drafted player has made quite a hit with local fans, who have expressed their appreciation to Howard York at 4 H. H. H. York, two local business men, who purchased the hotel for Portsmouth.

DOYLE SAYS SOX DECISIVELY BEATEN

Sold Billy Doyle for this morning pick to the White Sox on form, but is willing to admit that the Red Sox, who will witness what many believe will be the last edition of the American League, have been decisively beaten by the Monarchs.

Gleason Refuses To Concede Reds Have Best Ball Club

CHICAGO, Oct. 7.—Manager "Hal" Gleason of the Sox, before leaving for Cincinnati, where he will witness what many believe will be the last edition of the American League, has been decisively beaten by the Monarchs.

Heirs Ruth, second baseman of the Reds, was born December 26, 1886, in McAllen, Texas. He first played baseball professionally at Wilmington, N. C., in 1908 and at Lynchburg, Va. In 1910 he was with Reading. He was purchased by the Philadelphia Athletics and played with them in 1911 going from there to the Cleveland and Indianapolis clubs in 1912. He played with Baltimore in 1912 and with the Chicago White Sox in 1913. He was with Kansas City in 1914 and with Toronto in 1915. In 1916 and 1917 he played with Salt Lake City. Ruth was in the navy in 1918, joining the Red Sox spring. He has played second base for the Red Sox since the season began and is considered a top notcher in his position.

A. Earle Neale outfielder was born in Parkersburg, W. Va., Nov. 16, 1889. He first played with the Altoona club in 1902, but finished that season with London in the Canadian League. He was drafted into the Red Sox in 1914 but he was returned to London and from there went to Dayton and then to Whiting, where he was purchased by Cincinnati. This is the fourth year in a regular position with the Red Sox and he has become a great ground cover. Neale played left and center fields until this season when he took up the "outfield." In right field has been going well there. He is a fair hitter, a good runner and a very fast base runner.

Shortstop Magee outfielder was born at Clarendon, Pa., Aug. 6, 1884. He started playing baseball in 1903 at Jefferson and was obtained by Philadelphia Nationals the following season. He played in left field for the Phillies for eleven years and led the National League in hitting one season. In 1916 he was traded to the Boston Braves for Whitted and Dugay. He remained until August, 1917 when he was obtained by Cincinnati by the waiver route. He was seriously ill in May and June of this year, but in spite of this, has been playing well this season.

Well the series may be divided to day. Who knows but what the Red Sox will win the big honor. In today's game in Redland, only a slipshod will win for the fading Sox, who have failed woefully to live up to expectations. The team is not in a hitting slump. The players are finding better pitching than they did in the American. That is the truth of the matter.

Because because his team was getting gassed and unable to stand the gaff, Schulte kicked himself out of yesterday's battle and when he was on deck out the Sox lost their only chance to come through.

It must be admitted that Schulte is a wonderful catcher, but he has been sitting on Hibernon or Wingo Island, Los Angeles three times on him and Schulte has had several bad plays to his credit since the Red Sox began to work out in the Sox like the pro footballs out of a barrel.

The Red Sox inserted one of his fingers into his eye just at the right time yesterday and in addition to getting two runs put himself in position to score on Duncan's fly to Jackson. Jackson is a wonder and he is doubtless to be one of the high school catchers in the game.

It was not because his team was getting gassed and unable to stand the gaff, Schulte kicked himself out of yesterday's battle and when he was on deck out the Sox lost their only chance to come through.

It must be admitted that Schulte is a wonderful catcher, but he has been sitting on Hibernon or Wingo Island, Los Angeles three times on him and Schulte has had several bad plays to his credit since the Red Sox began to work out in the Sox like the pro footballs out of a barrel.

George Johnson, N. & W. son, emigrated from Jackson street, suffered injuries on three fingers of his left hand Monday afternoon while at work. The injuries were dressed by Dr. S. S. Haldeman.

Johnson is injured while working on his farm, even Fisher and the Squires are willing to admit it. The players are finding better pitching than they did in the American. That is the truth of the matter.

Meeting Postponed

A meeting of the general committee in charge of arrangements for the annual meeting of the American Legion to be held Tuesday evening has been postponed to a date in the autumn of 1919. Vice-President of the Legion is out of the city.

The Legion's officers and the Legion's members are willing to admit it. The players are finding better pitching than they did in the American. That is the truth of the matter.

It was not because his team was getting gassed and unable to stand the gaff, Schulte kicked himself out of yesterday's battle and when he was on deck out the Sox lost their only chance to come through.

GETTING THE HABIT

NOW a second grand jury has come forth with suggestions as to civic improvement and the laying of new taxes. This latest one wants Eleventh street improved. And the condition of that thoroughfare doth claim to the skies for betterment. It was "improved" once, that is it was paved, but it had better never been touched. If it is bettered the west end of it from Offene to Chillicothe will have to be torn up bodily and replaced, and the east half is just about half as bad.

The body likewise directs its attention to speeding and suggests that a tax be levied upon automobiles to pay the expense of a motor officer. If this tax be the remedy for a common and immediate infraction it is a long ways off. No such tax could be levied without an act of the legislature and let us endure the ills we have rather than fly to others we know of and are worse.

A PROBLEM PRESENTED

In completing the improvement of Scioto Trail to the northern county line, a serious problem is presented in the underground crossing shortly beyond Lucasville. Approaching from either direction the road turns at a short angle, imposing a serious possibility of danger. In truth, if two machines were to enter the crossing at the same time and but one going at speed a collision would be unavoidable.

Several ideas have been advanced and two of them, having in mind always that a permanent improvement is to be made, have merit in proportion to the nature of the conditions. The first of these is to cut out the curve altogether by continuing the road straight north and crossing under the railroad at an angle further up. The other is to deflect the road considerable to the left, as the crossing is approached from either side and thus throw one curve further north and the other further south so there will be a straight view of the crossing for some distance.

It would be the best policy to adopt one of these plans, having merit in the order in which they are set down. But if either is not a suggestion, offered by Mrs. James M. Crowe, ought to be adopted. This is that the crossing should be divided by a heavy iron fence, which would perform the slowing down of speed and also keep cars colliding therein. It would, however, be better to make the division of concrete, extending it as Mrs. Crowe says of the iron fence, considerably beyond each end of the crossing. Well, it would also be necessary, if this plan be put in force to widen the crossing, or do the same thing if it be used at all.

SHE MARRIED AN AVERAGE MAN

The suspense of those few seconds seems to him when he is weak and sore. She may scorn him when he swaggers. She may spurn him when he is loud and angry. She may despise him when he is silent. But she cannot resist his look of silent helplessness.

"Him!" I whispered.

What happened then is clouded in my mind. The first thing I recall is Jim wiping tears off my face with his handkerchief and I hurried in by the moonlit window crying my heart out.

"I didn't give in, though, Jim."

I switched off the lights and lay looking out my window into the front garden of our house and the silent street. It was cold and silver with moonlight. Not a footfall or wheel crunch anywhere. Everybody in the world but me seemed to be at home safe and happy.

I don't know how long I lay there, my eyes staring and my heart aching. But I suddenly could hear it no longer. The room stilled—this sweet, chintz-hung parlor had I had furnished so joyously.

I slid into kimono and slippers and strolled toward the living room. I could move about there or find something to read that would keep me from going mad and awakening the whole town with my screams.

As I pushed open the door I was terribly startled to see a man's figure on the moonlit window seat. There was something so preposterously gentle about the pose of it that I could hardly believe it was Jim. He too had his square chin bent upon his hands, his practical gray eyes sad and hag-racked, sleepless and miserable.

A man has no idea how a woman feels as he sat there alone, unable to

rest, yet unwilling to admit his error and ask my love and pardon, I should not have dreamed he had passed through anything unusual.

Thus ended our estrangement. The joy of reconciliation restored me. I take up my activities again. I resume the navigation of life's cross currents. I make my preparations for Christmas. I make preparations to leave Centerville and go to my city of dreams—New York. And the days go on.

But there is no exultant optimism in my heart that all our troubles are behind us now that our first bad quarter is over.

Indeed not. It was Stephenson, I think, who said: "For marriage is like life in this, that it is a field of battle, not a bed of roses."

Which reminds me, oddly enough, of that letter from Eric Sands. Shall I tell him of receiving it?

(To be continued.)

New - York - Day - By - Day

BY
O. O. MCINTYRE

NEW YORK, Oct. 6.—Life, as reflected in our best cellars this winter, is going to be very complex indeed. It is impossible to crowd many in New York Cellar and on the faded Four Hundred may be just Ten by Xmas.

The large hotels report that

mati, and Cleveland and by fall will include Pittsburgh, Indianapolis, Louisville, Atlanta, Toledo, St. Louis, Detroit, Chattanooga, Toledo, Dayton, Kansas City, Houston and Buffalo.

Practical life far beyond his

years. For the period of the great war was spent by him, partly at the historic English college of Eton and partly in the front line trenches, rifle in hand, serving as a private in the ranks, and constantly under the heaviest German fire. The King and Queen are passionately devoted to their boy. But with that heroism, and spirit of self-sacrifice which won for them the admiration of the entire world during the great conflict, they did not consider that they had any right to spare the lad from those perils and hardships which so many other Belgian boys were undergoing in the defense of their beloved country, and of the honor of the Belgian flag. During the first two years of the war, only his school holidays were spent on the battlefield in Flanders. After that he declined absolutely to remain any longer at Eton, while his countrymen were fighting, and continued to serve in the trenches and in the final advance against the enemy until the conclusion of the armistice. And now his father, who has never forgotten the advantages which he derived from the months which he spent touring in the United States, under an Englishman, just twenty-one years ago, has arranged to put the finishing touches upon the education of his heir, by a tour in America.

Wants An Avocetion

A farmer had come up to town for a few days. Before he started he had promised to bring his daughter a present, so he went into a jeweler's shop and said to the assistant: "I want a pair of earclings, cheap, but pretty."

"Yes, sir," said the jeweler; "you want something good, I suppose?"

"Well, I don't mind if one of them is a little loud," replied the farmer. "My girl is slightly deaf in one ear."

FIGURES ARE ALSO DECEPTIVE

IT is said appearance are sometimes deceptive. Considering with this, figures, even though they be official and provable, do not always mean as much as they suggest. Thus we find from reports of her government that Mexico, for the fiscal twelve months, just ended, imported into the United States products to the amount of 367,000,000 and imported here from 164,000,000. As compared with 1911 when the exports were 102,000,000 pesos and imports 145,000,000 pesos. Roughly a peso is worth fifty cents, so that would appear she has trebled her patronage from us and given us some millions more in pesos. Quite a hand-some showing on the face of it, for eight years, and considering that Mexico's internal disturbances have been acute nearly all that time, and we might take it that for the past year she has been doing less fighting and more working, but such is not the case, or at least the showing is largely discredited by conditions. Prices have more than doubled on most commodities and the increase in exports is principally in oil, the production of which is mostly in the hands of foreigners, who enjoy special protection. Other enterprises haven't this security and, probably, the remaining bulk of the gain was in raw materials and foodstuffs.

Even at that the figures show that something has been achieved and the long-harassed land is settling down to some order.

GETTING THE HABIT

NOW a second grand jury has come forth with suggestions as to civic improvement and the laying of new taxes. This latest one wants Eleventh street improved. And the condition of that thoroughfare doth elate in the skies for betterment. It was "improved" once, that is it was paved, but it had better never been touched. If it is bettered the wags said of it from Officer to Chiffie will have to turn up hollily and replace, and the east half is just about half as bad.

The body likewise directs its attention to speeding and suggests that a tax be levied upon automobiles to pay the expense of a motor officer. If this tax be the remedy for a common and immediate infraction it is a long ways off. No such tax could be levied without an act of the legislature and let us endure the ills we have rather than fly to others we know of and are worse.

A PROBLEM PRESENTED

INa completing the improvement of State Trail to the northern county line, a serious problem is presented in the underground crossing shortly beyond Lucasville. Approaching from either direction the road turns at a short angle, imposing a serious possibility of danger. In truth, if two machines were to enter the crossing at the same time and but one going at speed a collision would be unavoidable.

Several ideas have been advanced and two of them, having in mind always that a permanent improvement is to be made, have merit in proportion to the nature of the conditions. The first of these is to cut out the curve altogether by continuing the road straight north and crossing under the railroad at an angle further up. The other is to deflect the road considerable to the left, as the crossing is approached from either side and thus throw one curve further north and the other further south so there will be a straight view of the crossing for some distance.

It would be the best policy to adopt one of these plans, having merit in the order in which they are set down. But if either is not a suggestion, offered by Mrs. James M. Crowe, might be adopted. This is that the crossing should be divided by a heavy iron fence, which would force those to the slowing down of speed and also keep cars colliding therein. It would, however, be better to make the division of concrete, extending it as Mrs. Crowe says of the iron fence, considerably beyond each end of the crossing. Well, it would be also necessary, if this plan be put in force to widen the crossing, or do the same thing if it be used at all.

Sure Pat Moran knows something about base ball, he's an Irishman, isn't he? At the same time he should have adopted the idea of a fellow who knows more about it and pitched Elley instead of Fisher, and then with Reuther back yesterday, all Cincinnati could have roared without any reservation, last night: "Behold, the Conquering Heroes Come!"

You noticed how they continue to come. Declare if it keeps up much longer permits will have to be issued to citizens that will allow them to run their Lizzies only on particular days of the week, so that everybody can burn up gasoline and good money part of the time.

It's about all over, except the shouting and Cincinnati getting pretty tired with that.

I-I THINK SO-

HE HAD SOMETHIN' TIED UP IN A RED HANKIE!

THAT'S DIFFERENT

WHO'S WHO IN THE DAILY NEWS

PRINCE LEOPOLD, THE DUKE OF BRAKANT

Surely not the least important of the royal personages who have visited the United States of late or who will be with us later in the year is the Duke of Brabant heir to the throne of Belgium. He is now in this country and according to

present plans will

celebrate in Amer-

ica his eighteenth

birthday, thereby

attaining his legal

majority.

Probably few

royals or

otherwise have re-

ceived such an

extraordinary edu-

cation as has Bel-

gium's next king.

It has matured

him far beyond his

years. For the per-

iod of the great war was spent by

him partly at the historic

college of Eton and partly in the front

line trenches, etc. In hand, serving

as a private in the ranks, and con-

stantly under the heaviest

fire. The King and Queen are pas-

silently devoted to their boy. But

with that heroism, and spirit of self-

sacrifice which won for them the

admiration of the entire world, during

the great conflict, they did not con-

sider that they had any right to spo-

the lad from those perils and hard-

ships which so many other Belgian

boys were undergoing in the defense

of their beloved country, and of the

honor of the Belgian flag. During the

first two years of the war, only his

school holidays were spent on the

battlefront in Flanders. After that

he declined absolutely to remain any

longer at Eton, while his countrymen

were fighting, and continued to serve

in the trenches and in the final ad-

vance against the enemy until the

conclusion of the armistice. And now

his father, who has never forgotten

the advantages which he derived

from the months which he spent tour-

ing in the United States, under an

incognito, just twenty-one years ago,

has arranged to put the finishing

touches upon the education of his son,

by a tour in America.

TWO'S COMPANY—THREE'S A CROWD!

A Perplexing "?"

The type of youth who indulges in

torn clothes and a hat forced back

over his ears dropped on the

deaf chair.

"I'm afraid to give him gas," whis-

pered the dentist to his assistant.

"Why?"

"How can I tell when he's incon-

sistent?"

And Shake Well

"Are you of the opinion, James,"

said a thin-looking man of his com-

pany, "that Dr. Smith's medica-

tion does any good?"

"No, unless you follow the direc-

"What are the directions?"

"Keep the bottle tightly corked."

Missed His Guess

"What did you get out of that will

case?" asked the first lawyer.

"A hundred and fifty thousand dol-

lars," replied the second lawyer.

"Good count sum, eh?"

"Yes, but I thought the old man left

more than that."

Idle Summer

"What's that cub talking about

now?"

"A summer idyl," explained ma-

"He means an idle summer," growled

the old man.

The Otherwise Are Taxed More

The notice in a small western town

announcing January 1, 1919, the

owners of dogs within the city limits

will be taxed as follows: Males, \$1.00;

the female, 50¢.

No Quorum; No Meeting

Only two members, J. J. Orlett and Dr. L. G. Locke showed up and the scheduled meeting of the board of health yesterday afternoon had to be adjourned until a later time when an effort will be made to have a quorum present. Members Capt. James Little and Dr. George Martin were out of the city yesterday and Dr. A. L. Test the other member, was tied up with his work and could not attend.

The Martin

In some instances son brings home the bacon—but it takes daughter to marry and bring in the bacon.

Anything Can Happen In India

We saw an Indian paper that says Dutta is in the states and will be home soon. He has a wife and a little boy whom he has never seen in the dear old U. S. A., who will be glad to see him.—From the City, Iowa, Gazette.

Getting In The Game

Exce, Bertie, if you're very good I'll give you a penny."

"I'm afraid I can't afford to be good for less'n two cents, granma—but the way prices is today."

No Chance

Judge—"The police say you and your wife had some words."

Prisoner—"I had some, Judge, but I didn't get a chance to use them."

Bott Wood Good Fuel

The idea that hard wood is any bet-

ter than soft for fuel has been found

erroneous.

Drive For Community Service Bureau Fund Starts Today

There starts in this city at noon today a drive to see if this city will support with open-hearted generosity the Bureau of Community Service, an organization which, with helping hands, encircles the needs of the city and raises the tone of Portsmouth. In its mothering of young girls, attention to helpless sick, its initiative in clinics for the everlasting betterment of the people.

At the Elk Club at noon sixty business men of Portsmouth will lunch together, receive instructions, and be given a territory to canvass.

The drive will last three days and will be a house to house canvass. The business districts, the factories, and some of the residential districts will be canvassed. In the organization

of the Bureau of Community Service is the home nursing department; tuberculosis department; baby welfare; better housekeeping department. The Trachoma club is operated under the head of the Government Club is one of its activities. Its self-imposed duties are legion. Why not support it?

That the work of the Bureau is recognized in the community is shown by the following in the special report of the grand jury last Saturday:

"We recommend the Bureau of Community Service for the splendid work it is doing and has done with reference to bringing neglected children to the notice of the authorities, and that parents and others who are responsible for such conditions are made to feel the strong arm of the law."

Father Cotter Will Celebrate Anniversary

IRONTON, Oct. 7.—Rev. James H. Goeckner, two celebrated orators, Rev. Father Goeckner, pastor of St. Joseph church, will be the master of ceremonies for the occasion and Bishop Allen will preach at high mass at ten o'clock. The dignitaries here to take part in the anniversary will be Bishop Allen of Mobile, Ala., and Monsignor McHugh will preach.

Committee To Meet

The city campaign committee of the Republican party will hold a meeting at the Republican Club Wednesday evening. Final arrangements for the committee

Mission At St. Mary's

A special lecture beginning at 7:15 this evening at St. Mary's church will be delivered on "Confession," or "How Sins Are Forgiven. In the Catholic Church." The Jesuit Fathers who are

conducting the Mission at St. Mary's this week are arousing exceeding interest and the services are well attended.

This evening will feature a special lecture.

Fined For Violating The Traffic Laws

Asel Monrad was convicted in police court this morning on a charge of violating the traffic laws by driving on the wrong side of the street, and Mayor Kaps fined him \$5 and costs, which was suspended. The charge was filed by James Dawson, who complained that Monrad collided with his machine a week ago, badly damaging the Dawson car. The prosecution for violating the traffic laws will probably be followed by a civil suit for damages.

George Wren, 2823 Grace street, New Boston, was convicted on a charge of speeding and he drew a fine of \$25 and costs, \$15 of which was suspended.

Mrs. Katie Hauke-Geltz, who was locked up Sunday by the police for creating a scene on the street, in an effort to secure possession of her children, was released last night on her promise to go back to her home in Ashland.

Ed Sally drew a fine of \$25 and costs on his plea of guilty to a charge of intoxication and disorderly conduct. The complaint was filed by Mrs. Tina Davis, who alleged that Sally made indecent remarks to her.

Charles "Dixie" Spaulding, negro, arrested on suspicion of bootlegging, was turned out of the city jail last night after the police failed to gather the sufficient evidence to substantiate the charge.

OBITUARY

Wm. P. Colley

Mrs. G. W. Howes, assistant matron of the Children's Home, received a message yesterday afternoon of the death of Wm. Colley, aged 64. Mr. Colley was the agent of The Singer Sewing Machine Co. at Wadsworth for many years past.

Rev. Mr. H. C. Colley, of Wadsworth, today attended the funeral which was held this afternoon.

BIRTHS

Mr. and Mrs. William Howes, of Union Mills, and their son, a daughter from Milwaukee, Wisconsin, were born on Saturday morning.

The infant is the first grandchild of Mr. and Mrs. Wm. Howes.

DEPARTMENTS AT LOCAL STEEL PLANT HAVE BEEN SHUT DOWN

A dispute over wage demands at the Whittaker-Glessner Company, one of the 160-odd mill departments of Whittaker-Glessner plant has resulted in closing down of certain departments. About 500 workers were laid off in the closing down of certain departments. Regarding the matter, the company were to rates in excess of those obtained by other manufacturers for their in the open market and for mill work, but resulted in the close down of certain departments.

The Whittaker-Glessner Company, one of the 160-odd mill departments of Whittaker-Glessner plant, which in turn uses

the steel plant, which in turn uses

the steel
